CALL FOR PAPERS- TAKING RESPONSIBILITY FOR OUR FUTURE

YOUR ARTICLE COULD BE PART OF THE BOOKLET "TAKING RESPONSIBILITY FOR OUR FUTURE" WHICH IS GOING TO BE PUBLISHED BY THE YOUTH FUTURE PROJECT AND THE GERMAN FEDERAL ENVIRONMENTAL FOUNDATION IN DEC 2014!

We are the **Youth Future Project**, the youth network of the Right Livelihood Award and we are publishing a **booklet about Sustainability**.

future-justice commons
healthy-nutrition green-mobility
renewable-energies
ecological-diversity biodynamic-agriculture
sustainable-economics environmental-protection
sustainable-lifestyles
nature-conservation cultural-shift
climate-change right-livelihood

With this booklet, we want to provide the reader with an **insight into the youth movements** on sustainability in Europe.

Often conversations are leading us to **deeper questions** about sustainability, our actions, the feelings of guilt and helplessness, the youth movements and many more. You are invited to write an article about **a topic that feels deeply relevant to you**. These topics are freely chosen and the authors are from all over Europe.

We also want to write about **the projects we started and the steps we took** to create a society that is more likely to have a future worth living.

If you are keen on writing an article (scientifically or personally), drawing a picture or a comic, compose a poem or just cluster a random blowout of thoughts about sustainability- don't hesitate!

Frame: A4 Format, max. 3 pages

Please mail your contributions until May 15th to print@youthfuture.de
