

Tech Innovation, Entrepreneurship, and Education Fellowship Program

A Program for Bosnia-Herzegovina, Croatia, Slovenia, and the United States

APPLICATION DEADLINE
April 15, 2015

Program Introduction and Application Instructions

Dear Applicant:

The [U.S. Department of State's Professional Fellows Program](#) brings emerging leaders from around the world to the United States for intensive fellowships designed to broaden their professional expertise. Participants will complete individually-tailored fellowships in appropriate businesses, government offices, non-profit organizations, or business associations. The program establishes structured interaction among Americans and foreign participants designed to develop enduring professional ties and lasting partnerships.

[WorldChicago](#), an international nonprofit organization based in Chicago, Illinois, has been awarded an FY2015 grant from the US Department of State for 2015 to implement a *Tech Innovation, Entrepreneurship, and Education Fellowship Program* for Bosnia-Herzegovina, Croatia, Slovenia, and the United States. The program will bring a total of 10 emerging leaders from Bosnia-Herzegovina, Croatia, and Slovenia to Chicago for a program from **October 11, 2015 to November 13, 2015** that includes 4-week fellowships with Chicago-based businesses, government offices, non-profit organizations, or business associations. Selected fellows will complete individually-tailored fellowships with leading tech-related companies in a variety of fields, government agencies and NGOs that promote innovation and entrepreneurship, and university and non-university technology incubators.

Recruitment and selection of candidates will focus on targeting English fluent emerging leaders (age 25 – 40) from tech-innovation and entrepreneurship communities working in the private, public, and NGO sectors. Criteria for each sector is detailed below:

- **Private sector** – Recruitment will focus on entrepreneurial leaders from small or startup business ventures in tech fields that have a demonstrated track record of civic engagement and/or social entrepreneurship.

- **Public sector** - Recruitment in the public sector will focus on public officials whose work is focused on creation of incubation hubs, promoting job growth in tech fields, and/or the promotion of sustainable and inclusive economic development.
- **NGO sector** – Recruitment from the NGO community will focus on emerging NGO leaders working on creation of jobs in tech fields and on community-based and educational training programs in tech fields for students, women, minorities, persons with disabilities, and other marginalized populations.

WorldChicago and partner organizations will work to ensure that diversity is taken into consideration during the selection process and that an appropriate balance of men and women are selected for the program. Additionally, WorldChicago will target participants who have a demonstrated track record of leadership, civic engagement, and desire to build lasting connections with U.S. based organizations.

While in Chicago, all participants will stay with volunteer homestay hosts in the Chicago metropolitan area. In addition to the completion of a four-week fellowship, program participants will participate in group training sessions, workshops on corporate social responsibility, and sessions focused on how to create an effective entrepreneurship/investment climate in an urban environment. Selected fellows will also participate in the U.S. Department of State Professional Fellows Congress in Washington, D.C. at the conclusion of the program. The Congress brings together over 200 Professional Fellows from multiple regions and different thematic areas (legislative, economic empowerment, and the rule of law) for three days of networking and meetings to complement the fellowship.

In addition to the Chicago-based program, five tech entrepreneurial leaders from Chicago will also be selected for reciprocal exchanges to travel to Central Europe in the winter of 2016. The primary feature of this reciprocal exchange would be a two-day tech innovation summit in Ljubljana, Slovenia. In addition to the tech innovation summits, the participants will learn about the entrepreneurship culture in each participant's country, conduct workshops in their areas of expertise, and establish mentoring partnerships between the entrepreneurship civic community in Chicago and each country. WorldChicago will work closely with established in-country partners and selected fellows to coordinate the in-country programs.

Additional Eligibility Requirements

Competition for the Professional Fellows Program is merit-based and open to young professionals and emerging leaders, ages 25-40, who meet the following criteria:

STATEMENT OF PURPOSE QUESTIONS

23. In a separate Word document (max of 3 pages in 11- or 12-point font), please address each of the below questions thoroughly regarding your intent to participate in the US Department of State's Professional Fellowship Program. **Your answers will be read by the selection committee members and, if you are selected, by your selected fellowship host.** *Please provide two versions of the Statement of Purpose, one in English and a translation in your native language.* Both versions of your Statement of Purpose (English and native language) should be typed, single-spaced, and using an 11- or 12-point font. Each version should not exceed three pages in length. Please submit this form separately along with the rest of your application packet (please see page 3 for application checklist.) Please submit Statement of Purpose in Microsoft Word or Adobe PDF format only. Please consider the goals of the US Department of State's Professional Fellowship Program as you write your Statement of Purpose.

For your reference those goals are:

- Promote mutual understanding and lasting partnerships between mid-level emerging leaders from foreign countries and the United States;
 - Provide opportunities for foreign and American emerging leaders to collaborate and share ideas, approaches, and strategies regarding pressing challenges;
 - Promote enhanced leadership and professional skills for both foreign and American fellows so that they will be more able to effect positive change in their workplaces and communities; and
 - Build a global network of like-minded professionals.
1. Please describe your short- and long-term professional goals (in order of priority). In what ways do you anticipate that your participation in the US Department of State's Professional Fellows Program will help you achieve these goals?
 2. What are the biggest challenges facing tech innovation and entrepreneurship in your home country? What are the biggest opportunities for tech innovation and entrepreneurship in your home country?
 3. If selected for the program what would be your ideal fellowship placement? (e.g., University based technology incubator, a startup company working on app development, Government agency promoting innovation/entrepreneurship, nonprofit organization promoting tech education for students, etc.) Please include at least three fellowship placements that you think would be a good fit.
 4. What would be your goals for a four week fellowship? What are the topics you would be most eager to learn about at a U.S. organization, government agency, nonprofit organization, or startup company?
 5. Would you be willing to assist in organizing a program for a representative from your United States host organization in your home community in the winter of 2016? What type of collaborative project would you want to work on with your U.S. host organization?
