

## SCIENTIA FELLOWS – Research Proposal

### 1. Working title of your proposed project:

**Planned start date with the host organisation:**

**Total expected duration in months** (minimum 12, maximum 36, according to Scientia Fellows mobility models):

**Scientist in Charge/Supervisor** at your Host Organisation

*(in the case of outgoing mobility please mention the primary (at a target Host organisation where you apply and if successful will go first, as well as the secondary Scientist in Charge (in Norway)):*

- Name
- Position
- Department
- Email
- Telephone

### 2. Abstract of your proposed research in layman's terms (max. 200 words \*)

*\* Here and further in the application, the number of words should be treated as an indicative length of the written text. 400 words is approximately 1 page.*

### 3. Details about your project:

- **Hypothesis/Problem statement** (up to 200 words)
- **State of the art and Objectives** (max. 400 characters per objective)
- **Research methodology** - for each objective explain the approach to be employed, including whether this methodology is established at your host organisation
- **Work plan** (max. 1500 words – 4 pages) Activities and how they will be achieved (include information about any specialist equipment or resources needed. Indicate the estimated time schedule, the sequence of research phases and the amount of time you expect to need for each phase.)
- **Impact** (max 250 words)
- **Literature references** (up to 1 page) relevant to proposed work

**Is your proposed research conditional on receiving any other research grants?** Yes/No

- If yes, please give details

**Are you actively seeking funding from other sources?** Yes/No

- If yes, please give details

- If no, please give reasons

**Do you foresee any IP issues with your proposal?** Yes/No

- If yes, please give details
