- non-formal learning and nature
- exploring universal principles

- CYCLES
- RITUALS
- ELEMENTS
- PILGRIMAGE
- LABYRINTH
- COUNCIL

Deep Education is a meeting of practitioners of nature based methods in education and training. The course is designed as a space for experiment, inspiration and sharing. There will be inputs from the team, experiential sessions, sharing moments and space for participants to contribute with their themes, tools and areas of interest.

We invite those who are active in the field, want to explore variety of approaches, experiment and receive feedback from other professionals. The whole course is focused on modern ways of using traditional patterns in present education, social work and youth work context. The methodology uses the time of Samhain / Halloween / All Saints' Day as an example of using rituals and ceremonies in learning and self development events.

This course is funded by the EU Erasmus+ Programme. Partner countries of the project are: Czechia, Germany, Hungary, Ireland, Italy, Poland, Slovakia, Spain, Turkey and United Kingdom. Participants from partner organisations of the project will have a priority in the selection process. Group size: 33 (3 from each country + team).
