

Exercise 2a: Imagine you have an opportunity to create your ideal international volunteering project. What would you like to do and where would you like to go? Would you like to work with youth, elderly people, with people with fewer opportunities or something else? Would you prefer to go in a small town, village or maybe a capital city? How many months would you like to stay there? Please describe in max. 300 words.

My ideal international volunteering project:

Exercise 2b: Now research more about the existing volunteering programmes (make sure you check the unit video to get inspired) and see which programme is most suitable for your ideal international volunteering programme.

Go through the existing databases of volunteering opportunities, you might get surprised and find exactly what you really want to do.

Do not hesitate to start from the **European Voluntary Service Database:**
