WANTED: Front End Developer

Who are we?

FRINK Advanced Services is a boutique Cisco partner designing and developing solutions and services in corporate collaboration environments. We are a bunch of passionate individuals that want to make a difference in their professional life and take an honest approach towards our clients. If you want to join international and enthusiastic team to make a difference through your work we are eager to hear from you! For more information check us out on www.frink.at.

What will you be doing?

- ✓ refining the existing in-house software product based on customer feedback
- ✓ further developing our products, incorporating your own ideas as well as the companies visions
- ✓ getting accustomed and comfortable with new technologies and their practical applications

Which experience should you bring to the table?

- ✓ responsive HTML applications
- ✓ client-side JavaScript (ideal: angularJS)

- ✓ REST-based APIs (consuming)
- ✓ Grunt/Gulp, NodeJS or similar frameworks
- ✓ basic English skills

What kind of individual are we looking for?

Studying IT and feeling like taking on the aforementioned challenges are the basic requirements. Aside from that, we are looking for an open-minded, motivated person that enjoys working in a team. We also appreciate a hands-on mentality as well as a great deal of humour.

Job details

We offer a place in our young, international and friendly little team with very flexible working hours for you to keep a healthy work-life balance and a gross wage of at least €1.400. Our offer is full-time for the next 6 months starting June/July 2016. Depending on your qualifications and experience you can expect a reasonable overpay.

Piqued your interest? Then we would love to hear from you to arrange a meeting!
